## Grown with Care - Local Farmers' Markets Support and Nourish Local Communities

For the most part there is no better place than to buy fresh produce than at a farmers' market. They offer food of superior quality, help support small-scale farmers and increase the amount of food available to consumers. When you buy directly from a farmer, you're pretty much guaranteed real freshness. You're supporting a local business (possibly your neighbor). And you have the opportunity to ask how they grow their food.

Farmers' markets are more than just markets. They educate all of us, teaching us how food is actually raised and why that matters.

The more successful farmers' markets are the producer-only markets. Growers and producers are only allowed to sell products they grow, raise and produce themselves. And the quality of the produce is phenomenal. They are the key to guaranteeing authenticity, quality, and freshness, and knowing the farmer who grows or raises your food.

[Here are a few reasons to support your local farmers' market.](#)

1. Taste Real Flavors. The food you buy is the freshest and tastiest available. It's as real as it gets.
2. Enjoy the Season. The food you buy is seasonal. It's fresh and delicious and reflects the truest flavors.
3. Support Family Farmers. Buying directly from farmers gives them a better return on their produce.
4. Protecting the Environment. Food is transported shorter distances and is generally grown using methods that minimize the impact on the Earth.
5. Nourish Yourself. Many farmers go to great lengths to grow the most nutritious produce possible.
6. Discover the Spice of Life – Variety. You will find an amazing array of produce that you don't see in your average grocery store.
7. Promote Humane Treatment of Animals. You can find meats, cheeses, and eggs from animals that have been raised without hormones or antibiotics, who have grazed on green grass and eaten natural diets.
8. Know Where Your Food Comes From. Your local farmers market is one of the best ways to connect with where your food comes from.
9. Learn Cooking Tips, Recipes and Meal Ideas. Farmers, ranchers and artisans are often passionate cooks with plenty of free advice about how to cook the foods they are selling.
10. Connect with Your Community. You're outside, enjoying a beautiful sunny day. The farmers market is a community hub, a great place to meet up with your friends.

The Shelby County Chamber of Commerce & Industry will be hosting the 2016 Shelby County Harvest Market every first Thursday of the month from June through October in the beautiful and historic Harlan Downtown Square. The market will be open from 4:00 p.m. to 8:00 p.m. Vendors are needed - \$75 for the season or \$25 for one night. Rules/guidelines and the application/agreement can be found in this newsletter. If you need additional information, call the Chamber office 712-755-2114 or [email Carol](#).

Chamber ambassadors are a treasured group. They are the public relations arm of the Chamber and we appreciate all they do for us.

They serve the Chamber and its members acting as hosts during Chamber events and helping new members become acquainted with Chamber benefits, programs and activities.

Being a Chamber ambassador has its benefits. Increased name and face recognition for individuals and businesses in Shelby County; increased networking opportunities and making a one-on-one connection with new and existing Chamber members; the opportunity to get insiders perspective on the local business community; the opportunity to meet local business and community leaders and the opportunity to help build and display community pride.

We currently have a great group of Chamber ambassadors but are always looking for more people to join. Requirements include diligently attend the meetings and various events of the Chamber, serve as a mentor to new Chamber members, deliver materials to Chamber members, serve as a welcoming committee for new Chamber members, new businesses and residents in Shelby County and other varied duties as specified. If you are interested in becoming a Chamber ambassador, please contact Ed at 712-755-2114 or [email](#).

# EASTER

Growing up, I loved Easter. It was my second favorite holiday, running a close second to Christmas. What's not to love about Easter? Hard-boiled colored eggs, baskets filled with jelly beans, chocolate Easter candy eggs all dressed up in pastel-colored foils, and the ever famous hollowed chocolate bunny. Being the youngest, I always got the colorful stuffed Easter bunny. My oldest brother always got the box of peeps since they were his favorite (still are today). And like all siblings, we would "steal" candy from each other's Easter baskets, which caused a lot of arguing among the four of us.

Did you know that next to Halloween, Easter is the biggest candy-consuming holiday of the year? In 2015, Americans spent \$1.9B on Easter candy ([Source](#)). That's 120 million pounds of candy bought each year. For the holiday, 90 million chocolate bunnies, 91.4 billion eggs, and 700 million peeps are produced each year. Oh, and Americans consume 16 billion jelly beans on Easter ([Source](#)).

Another thing I loved about Easter, going shopping with my mom and sister to find the perfect dress, hat, gloves, shoes and purse. Didn't matter if we had snow or if the temperatures hit the mid to high seventies, we all wore our new Easter clothes with pride. Today, I lean more towards brighter colored shirts and a nice pair of jeans. And Easter is the perfect opportunity for me to spruce up my spring wardrobe. According to the [2015 National Retail Federation's Easter Spending Survey](#) conducted by Prosper Insights & Analytics, consumers spent more than \$2.9B on bright colored apparel for themselves and their families and \$5.3B on food and other Easter fare.

I still love Easter, minus the basket filled with candy, the dress, the hat and gloves. I'm always open to a new pair of shoes and a new purse. I treasure the memories made with my family growing up and look forward to the new ones I'll make with my great nieces and nephews. Happy Easter everyone. Enjoy!
